EXPERIENCE

ByteUp AI Aug 2024 - Present

Frontend Development Intern & UI Designer

• Currently developing an Al-powered chatbot product website and other projects using Next.js, with a focus on implementing SEO best practices. Collaborated with fellow interns and contributed to project repositories on GitHub.

• Developed client websites using HTML, CSS, JavaScript, React, Tailwind CSS, and GSAP for real-world projects with API integration. Built the company's website using React.js, ensuring responsive design and smooth functionality.

Sahajananda Tech Services And Research Center Private Limited

Feb 2022 - June 2024

Co-founder & UI Designer

- Responsibe for designing mobile app UI using figma for all products. Created wireframes and prototypes to iterate on design concepts and gather user feedback.
- Developed the company's website using HTML, TailwindCSS, and JavaScript, ensuring a responsive design. Designed user interfaces (UIs) for client projects in the AI/ML and product sectors, focusing on usability and aesthetics.

PROJECTS

Chatbot Product Website (One Click Agents) Link

Dec 2024 - Present

Technologies: HTML5, Tailwind CSS, Next.js, Axios API Integration

- This project is currently in progress as part of my internship, and my role involves developing the frontend using Next.js and Tailwind CSS. My responsibilities include creating a responsive, user-friendly interface.
- I am also responsible for API integration and implementing SEO optimizations to enhance visibility and performance.

Movie Website (FilmBox) Link

June 2024

Technologies: HTML5, Tailwind CSS, React, Redux, Axios

- Developed a movie application using React, integrating React Hooks, Axios, React-Redux, and React-Router-Dom.
- Integrated the IMDB API to fetch and display real-time data for movies, and TV shows.
- Implemented a fully responsive layout for optimal user experience.

Other
